SUMMARY

Software Developer with nearly a year of experience on the Merkensoft project at Drylogics, specializing in full-stack web development using JavaScript, TypeScript, React, MUI, and Ruby on Rails. Proven track record in building responsive, scalable applications, maintaining high coding standards, and a strong passion for learning new technologies

EXPERIENCE

Drylogics Solutions **May 2024 - Present**
Software Development Intern

- Contributed to the development of web applications using React, TypeScript, MUI, and Ruby on Rails, building and maintaining RESTful APIs.
- Wrote clean, efficient code, followed best practices, and collaborated in code reviews, testing, and debugging. Assisted in deploying and maintaining applications on cloud infrastructure, utilizing Git for version control and GitHub for collaboration.

PROJECTS

- Merkensoft:**
- Developed an intermediate app designed to facilitate wholesale buying and selling, streamlining the transaction process between suppliers and retailers.
